

## FORMTEKNIK

### FORMTEKNIK is a world's leading supplier of system solutions

FORMTEKNIK, a member of MGS Mfg. Group ([www.mgsmfg.com](http://www.mgsmfg.com)), delivers world class multicavity high precision moulds including the IM turnkey solution in a concept which insures from blueprint to high volume production in the quickest and most effective manner. When it comes to speed and quality in the service of our customers, we make no compromises. We create a professional corporate culture and work environment that stimulates innovation.

## MEASUREMENT TECHNICIAN

Formteknik in Roskilde is looking for a Measurement Technician to work with measuring and quality management in our company in Roskilde.

The Measurement Technician will report to our Plant Manager and will work across the organization in close collaboration with colleagues from Toolmakers to Project Management.

### Job description

#### Tasks will include:

- Measurement of tool components and plastic items
- Quality management of tool manufacturing
- Review of measurement documentation
- Laser engraving of tool components
- Carrying out procedures
- Work according to our quality management system
- Assist with relevant QA needs and audits

### Qualifications

#### We expect these qualifications:

- Experience with tactile measurement - preferably a trained Measurement Technician, but this is not a requirement
- Preferably knowledge of quality management and ISO 9001 & ISO 13485
- Works well with IT. Preferably familiar with Zeiss Calypso
- Good English skills
- Ability to work on several tasks at a time and still provide good service
- Works systematically and thoroughly with an eye for detail
- Responsible and takes pride in delivering a good job

We work flexibly, and therefore there may be occur reprioritisations during the working day, just as you will be given ad hoc tasks. We are a company that places great emphasis on collegial cooperation and, not least, a good atmosphere.

There can be several entrances to this position - you can have a theoretical or practical background as a Measurement Technician or as a Toolmaker/Machine Worker with experience in measuring. Training will be provided, and we are also happy to receive your application if you have obtained qualifications in an alternative way than through education.

#### Your options with us

- Work in a skilled and fun team in an international company with exciting tasks
- Gain responsibility and ownership of tasks and projects
- Challenging development opportunities
- Good pay and working conditions are offered to employees as well as the possibility of flexible working hours

If you have any questions about the job, you are welcome to contact Plant Manager Kim Bruun on +45 2785 4041.

Send your application to [jobs@formteknik.com](mailto:jobs@formteknik.com)

Deadline is June 21st, 2022, but we will hold job interviews on an ongoing basis.
